## Prof. Dr. Sudesh Kumar

Editor-in-Chief

Malaysian Journal of Microbiology (MJM)

*“MJM’s operations have been mostly manual since its inaugural issue 13 years ago. OpusSoft has helped enhance our workflow efficiency to a great extent in the last 2 years.*

*The **cloud-based** platform is not only packed with standard functionalities normally found in other journal management systems but also includes **editable email templates** and **real time metrics** critical to maintaining MJM’s indexing in major databases.*

*All these at a reasonable price tag.”*

**Prof. Dr. Fouzia Rhazi Filali**

University of Moulay Ismail  
Morocco

*“I find OpusSoft’s features on par with a few other popular online systems through which manuscripts were assigned to me for review.*

*The **automated reminder emails** help me to keep up with time but the cool thing about OpusSoft is that I am not burdened with more than two manuscripts at any overlapping time periods.*

*Smart indeed! Great to know OpusSoft is a **Malaysian product.**”*

**Dr. Azad Khaledi**

Department of Microbiology and  
Immunology, Faculty of Medicine,  
Kashan University of Medical Sciences,  
Kashan, I.R. Iran

*“I am able to use a **single login credential** to access the system to function both as a Reviewer and also to submit manuscripts as an Author.*

*From initial submission to final acceptance and uploading of proof of payment, using OpusSoft is a breeze!”*

## Pricing

Subscription starts at RM 799/month
